

- ① streaming and recording at the same time \ large church with displays \ one man band \ live production up to 4 sources

Byens Valgmenighed (City Church Copenhagen) is Small church with a congregation of around 100 people, that normally meets for services in downtown Copenhagen.

The questions is how to get the congregation to experience a nice casual service on facebook and stay connected during lockdown, while not breaking the limitations of gathering more than 5 people in one place.

This was made possible by using PTZ Extreme to allow one man to control multiple cameras, including a camera slider, stream and record, while also making some

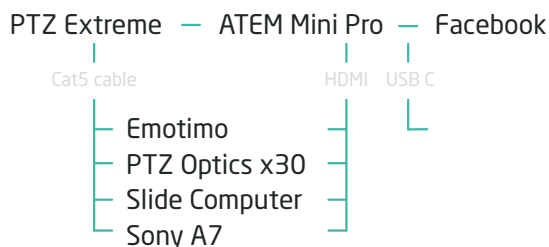

nice looking visuals, like keying on bible verses, and the phone number for the online offering.

The solution also allow the operator to control the slide computer from the PTZ Extreme.

All the visual and camera operation was handle by one operator, while a sound engineer handle the mixing of the worship.

The service was nicely received, had around 35 devices attending, and the Pastor was happy about the solution.
